

FIG. 1

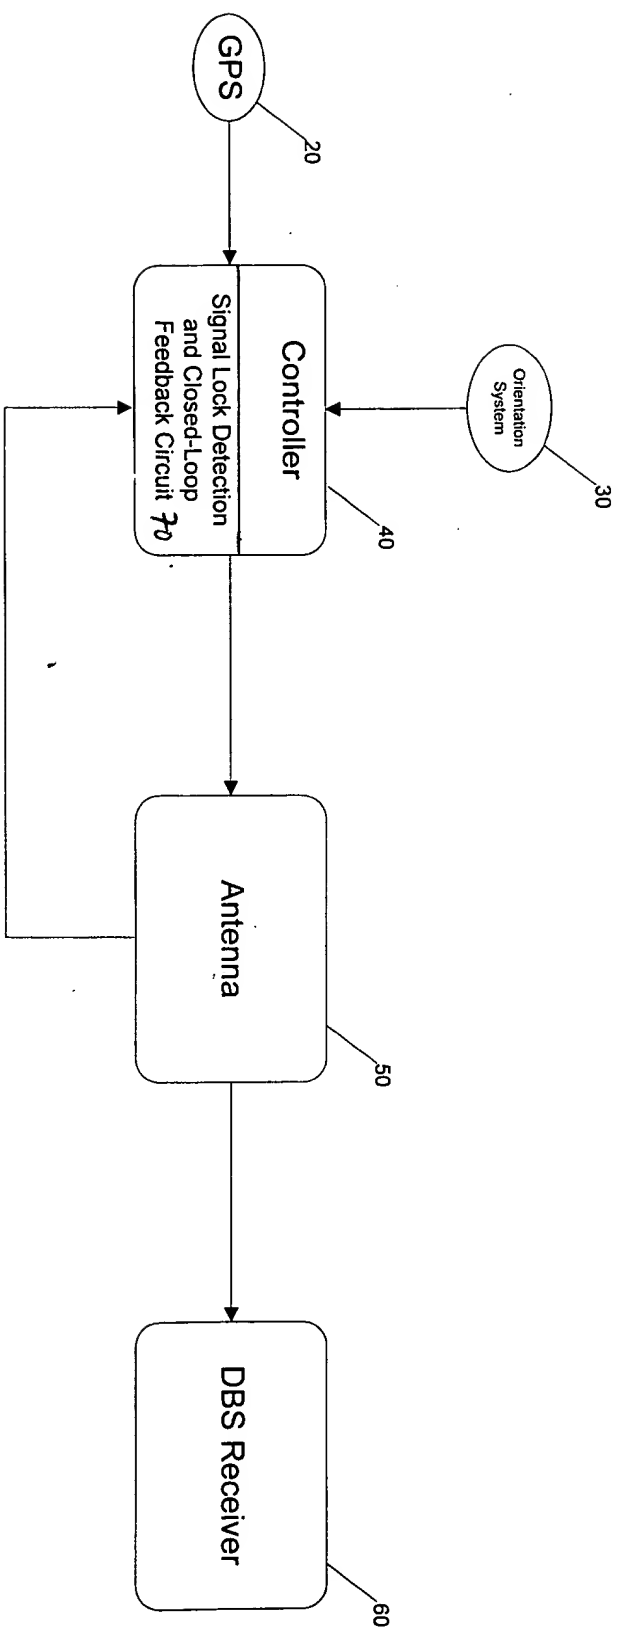

FIG. 2

FIG. 2 is a block diagram of a system. The system includes a GPS (20), an Orientation System (30), a Controller (40), an Antenna (50), and a DBS Receiver (60). The GPS (20) and the Orientation System (30) provide input to the Controller (40). The Controller (40) provides input to the Antenna (50). The Antenna (50) provides input to the DBS Receiver (60). The Antenna (50) also provides feedback input to the Controller (40).
